WHEELED & TRACKED MINI SKIDSTEERS

Manufactured by Baumalight in Wallenstein, Ontario, our line of rugged Mini Skidsteers are designed for versatility. At Baumalight, versatility not only means offering a carrier that can easily navigate in tight spaces, but it also means providing a wide selection of useful tools and attachments.

Powered by either a Honda, Kubota or Yanmar engine, the Baumalight Mini Skidsteers have a hydrostatic drive controlled by true joystick controls. Our Mini Skidsteers come standard with an interchangeable universal mini skidsteer quick attach plate. Baumalight uses a three-pump hydraulic operating system, one for hydraulic flow to run the machine's auxiliary & boom and two pumps for the propulsion systems, one for each drive side. There is a dedicated oil cooler to better manage hydraulic heat generation and the lift cylinders are cushioned at the end of stroke.

8 WEEKS 8% \$ SAVES \$8

PLAN AHEAD AND SAVE

To reward and encourage you to plan ahead Baumalight is offering an 8% discount on pre-ordered Mini Skidsteer Carriers. With this program, if you order your Baumalight Mini Skidsteer with an 8 week delivery date, you will receive an 8% discount on the Mini Skidsteer Carrier.

*Discount only applies to the Mini Skidsteer Carrier, tools and attachments do not apply.

FEATURES AND BENEFITS

Hydraulic Float

The hydraulic float feature allows the operator to gently skim the attachment along the contour of the surface without down pressure or lift.

Dual Joystick Controls

The dual joystick control system allows you to easily operate the drive system and the boom at the same time.

Standard Case Drain

Sometimes referred to as a third line, the case drain line will relieve any excess pressure and drain it back to your return line, then into the reservoir.

Aux Pressure Gauge and 12V Plug

The dashboard has a convenient auxiliary pressure gauge and a 12V plug.

Boom Safety Lock Bar

When you need to perform maintenance, the boom safety lock bar allows you to raise the boom and engage the locking bar. How you can safely stand under the raised boom without risk of the boom dropping.

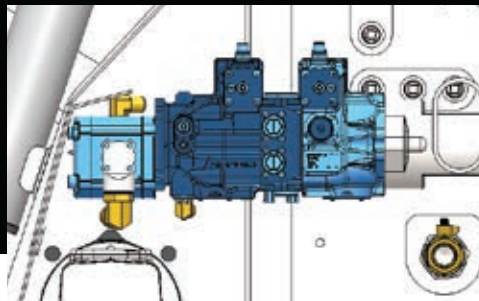

OPTIONAL D004075 BOBCAT MOUNTING PLATE

Bobcat Mini Skidsteer mounting plate can be mounted in the factory or it can be pinned in the field.

Oversized Radiator

To increase the power and ensure cooler running, all units have an oversized hydraulic radiator.

Dual Piston Pump Driven

Both sides of the Mini Skidsteer are driven by a dedicated dual piston hydraulic pump.

Grease Pins on All Pivot Points

The Mini Skidsteer features grease pins on all pivot points, reducing the risk of equipment damage and providing long life and easy servicing.

WRL58G WHEELED

POWERED by
HONDA

WRL58G SPECIFICATIONS

Honda GX690 Gas Engine 22.1 HP (688cc)

Carriage: Tires
Hydrostatic Drive
Joystick Drive Control
Travel Speed: 7.84 km/h
2800 psi Relief Setting

11 GPM Under no Load
3 Pumps
Joystick Boom Control
Optional Self-Leveling
70" Pin Height
8" Ground Clearance

12.5L Fuel Tank
1,900 lbs Tipping Weight (without weight kit)
2,170 lbs Tipping Weight (with weight kit)
38" W x 62" L (without attachment)
Weight: 1,800 lbs (without weight kit)
2,200 lbs (with weight kit)

WRL58G FEATURES

Honda Gas Engine

The WRL58G model is powered by a reliable 22.1 HP (688cc) Honda GX690 gas engine.

Operating Capacity

The WRL58G model has an operating capacity of 665 lbs (35% of tip capacity) and 760 lbs (35% of tip capacity) with added weight kit.

Ground Speed

The ground speed of the BaumaLight Mini Skidsteers is quite impressive with the wheeled model able to reach 7.84 km/h.

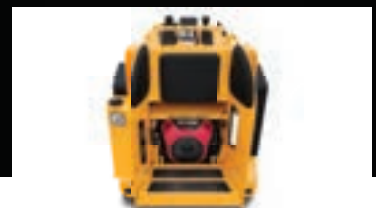

High Capacity Fuel Tank

The high capacity fuel tank holds 12.5L of fuel allowing you to work longer.

Ground Clearance

The WRL58G has a ground clearance of 8 inches.

Stand-In Operator Compartment

For a safer and more comfortable operation, the operator compartment allows you to fully stand inside.

TRL620D TRACKED

TRL620Y TRACKED

TRL620D SPECIFICATIONS

Kubota D1105 Diesel Engine 24.5 HP	Joystick Boom Control
Engine Displacement 1.1L	Standard Self-Leveling
Carriage: Tracks	76" Pin Height
Hydrostatic Drive	40L Fuel Tank with Gauge
Joystick Drive Control	6.5" Ground Clearance
Travel Speed: 4.57 km/h	2,930 lbs Tipping Weight
3000 psi Relief Setting	3,170 lbs Tipping Weight (with weight kit)
10.5 GPM Under No Load	40" W x 70" L (without attachment)
3 Pumps	Weight: 2,930 lbs (without weight kit)
	3,170 lbs (with weight kit)

TRL620Y SPECIFICATIONS

Yanmar 3TNV80F Diesel Engine 22.8 HP	Joystick Boom Control
Engine Displacement 1.267 L	Standard Self-Leveling
Carriage: Tracks	76" Pin Height
Hydrostatic Drive	40L Fuel Tank with Gauge
Joystick Drive Control	6.5" Ground Clearance
Travel Speed: 4.57 km/h	2,980 lbs Tipping Weight
3000 psi Relief Setting	3,230 lbs Tipping Weight (with weight kit)
11 GPM Under No Load	40" W x 72" L (without attachment)
3 Pumps	Weight: 2,930 lbs (without weight kit)
	3,170 lbs (with weight kit)

TRL620D & TRL620Y FEATURES

High Capacity Fuel Tank

The high capacity fuel tank holds 40L of fuel allowing you to work longer. The tank also comes with a convenient fuel gauge.

Operating Capacity

The tracked models offers a best in class operating capacity of 1225 lbs (35% of tip capacity).

Self-Leveling

The self-leveling valve on our tracked units makes sure the load remains level to the ground while you're raising the boom.

Far Reach

When you need to reach a far distance, the BaumaLight Tracked model is designed for maximum reach. This design feature allows you to load and unload trailers or dump your load from further away.

Lofa Engine Control Panel

A compact analog controller that provides complete engine control, monitoring and protection. Includes RPM gauge, hour meter, LED diagnostic display and plug-and-play installation.

Diesel Engines

The TRL620D model is powered by a 24.5 HP Kubota D1105 diesel engine. The TRL620Y is powered by a 22.8 HP Yanmar 3TNV80F diesel engine. The increased displacement (1.267 L) of the Yanmar engine equates to a higher torque.

MINI SKIDSTEER APPLICATIONS

AGRICULTURAL

On a farm, the productivity of your day is often reliant on your equipment, and every machine has a job and a purpose. The Baumalight Mini Skidsteer is a useful tool for day to day farm use. Whether it's cleaning a stall, handling straw or hay, digging a fence post hole or moving manure, the Baumalight Mini Skidsteer is a useful machine for the job.
